Subject: DOL negatively impacting Americans retirement

Mr. Sean Tegtmeyer
1713 Twinberry Ave
Clovis, CA 93619-5024

9/2/2015

Dear Labor:

Senators/Congressmen,

DOL's proposed rule to disallow trading options in our retirement accounts will make it much harder for people that rely on such trading in order to make enough money to retire at a reasonable age. The government should not have the right to decide that we are not smart enough to make our own informed investment decisions. Options are tremendous tools that can be used to increase the likelihood that stock/options positions will be net profitable. Please do not allow the DOL to impact my (and others) retirement in such a negative way. Thank you so much.

Sincerely,

Mr. Sean Tegtmeyer
